General Condition:-

1-Third party for this contract should be selected from the following reputed companies **and should be approved by (MRC) before the beginning of the works:-**

1-1-Bureau VERITAS of France.

1-2-DNV.

1-3-TUV.

Which will be in turn acting as "Inspection Authority", and will approve all the technical documents, certificates, **inspection/test reports according the Inspection Test Plan (ITP) which should be approved by Inspection Authorities also according to manufacturer quality control plan for material/equipment** and other relevant reports issued by the manufacturer.

2-All inspection activities and tests carried out by the inspection authority and the manufacture's inspector should be performed in accordance with the standards mentioned bellow:

-For Materials: ASTM standard with ASME sec. II requirements.

-For Pressure Vessel: ASME code section VIII Div. 1 latest edition requirements.

-For Piping: ASME/ANSI B31.3 requirements.

-For Fittings: ASME/ANSI B16.5 requirements.

-For Welding: AWS & ASME sec. IX requirements.

-For NDT: ASME sec. V.

Any other equivalent standards not acceptable.

3-In case of conflict between the contract specifications and/or code requirement (referred to in the contract), the most stringent requirement shall be apply.

4-The material of steel plate which will intend to be used in fabrication of shell of the equipment should be A-516 Gr. 60 **(normalized)**, also this material should be subjected to supplementary requirements (S5 & S8) according to the ASTM standard. The inspection reports for non-destructive tests mentioned as a supplementary requirement and material certificates should be issued and approved by the Inspection Authority.

5-The equipment and all the raw material test and chemical reports documents should be approved by the inspection authority, which certify that the material passed the required tests successfully and comply with the specification of the tender document.

6-The origin of all raw material and manufacturing company should be West Europe, Japan and USA, when ordering materials, from suppliers and sub-suppliers which are subject to the inspection the manufacturer and/or supplier must clearly show on their order that the material is subject to inspection by the said authority's inspector.

7-The manufacturer's inspectors shall be responsible for full dimensional checking of items and for seeing that all points mentioned in these inspection requirements are observed. The manufacturer shall have own routine inspection activities for quality control which can be preceded on their own free independent schedules regardless of the presence of the inspection authority. It is to be understood that inspection authority activities do not relieve the contractor from contractual obligations.

8-The inspection authority shall delegate its specially trained inspector to the manufactures mills and works, where items related to the contract are being processed, manufactured, assembled and/or fabricated to examine, inspect, check and witness tests during all phases of processing, manufacture, fabrication and/or assembly and on the completed item to ensure its complete conformity with the requirements of the contract.

9-Inspection certificates, shop test certificates, fabrication certificates, performance test certificates and all other certificates issued by the inspection authority must be fully detailed containing all the relevant data required and confirming that the item certified conforms to the requirements of the contract.

10-The contractor shall sent to the inspection authority all information necessary to carry out inspections of the equipment and materials such as a purchase order number, supplier's and /or manufacture's name, expected time of delivery and specification thereof. The contractor shall be responsible for all coordination work of the inspection authority's inspector and suppliers to ensure their presence at the places of the right time.

11-Welding Procedures specification (WPS) for each welding seal which includes the details below should be included in the technical offer.

-Edge preparation.

-No. of passes.

-Gap limitation.

-Electrode specification (AWS)

-Heat Treatment.

12-PQR issues for weld seals which were certified by the inspection authority are required and should be submitted for final approval before start of manufacturing.

13-Mill and original certification should be submitted.

14-The Knitted Corrugated woven wire mesh (Demister) which was illustrated in the drawing should be included with specification, density 190 Kg/m^3 , wire diameter 0.28 mm, material austenitic stainless steel type A304.

15-All the notes, details, general data mentioned on our drawing have to be recognized and applied.

16-Three copy of drawings and inspection documents of the delivered material should be supplied in English languages.

17-The delivered equipment should be protected to be durable for overseas shipment by use of suitable paint.

1- Certificate Of Origin

2- Mill Certificate

3- Dimensions Chick

4- Third Party Inspection Certificate
