

# IRAQ CONTAINER TERMINAL

UMM QASR PORT, IRAQ

**GULFTAINER**  
GROUP

---

# GULFTAINER GLOBAL OPERATIONS

Gulftainer Company Ltd, a private UAE Ports and Logistics Company, was established in 1976 and for 35 years has delivered world class performance.

The company's international presence now includes Kuwait, Turkey, Pakistan, Africa and Iraq – plus the recently announced new venture in Ust-Luga, Russia.

In the second half of 2011 port operations will commence in Recife, North East Brazil providing comprehensive and efficient support for the region's economic development.

UAE operations now include the 'best in class' Khorfakkan Container Terminal (KCT) and Sharjah Container Terminal (SCT) as well as port operations and logistics in Ruwais.

Additionally, in 2008, the company established 'Momentum' a new Third Party Logistics Company (3PL) – focussing on transportation, warehousing, container repair, freight forwarding and project logistics.

Momentum is now active throughout the region and worldwide.

# GULFTAINER IN IRAQ

In addition to the **IRAQ CONTAINER TERMINAL IN UMM QASR PORT**, Basrah Province, the Gulftainer Group is fully engaged in Iraq aiming to provide the port, transport and logistics links so necessary to assist in efficient redevelopment – all the way from Zakho in the North (on the Turkish border) to Umm Qasr in the South. The company currently has people and operations on the ground in both locations, as well as others in between, such as Erbil and Basrah.

Gulftainer are operating Berth 8 at Umm Qasr Port (South). With the terminal having proudly handled its first container vessel in August 2010, the facility has now developed into a fully operational container terminal with full investment in assets such as mobile harbour cranes, container handling equipment and paved, secure, storage areas.

## **GULFMAR – SULAIMANIYAH**

Gulftainer is a joint venture between Azmar Air and Gulftainer that has an exclusive agreement to handle air cargo at Sulaimaniyah International Airport, and to develop a cargo village on the site, providing a dedicated cargo facility for carriers flying to Kurdistan.

## **ENERGY SERVICE CENTRE (ESC) - CHEMCHEMAL**

ESC is a joint venture between Gulftainer and local and international partners. The Energy Service Centre will be a secure facility, strategically located in the northern Iraqi oil and gas fields, which will cater primarily to the oil and gas industries but will in addition offer modern facilities to industrial and commercial operators, as well as to logistics companies.

## **GULFTAINER – UMM QASR LOGISTICS CENTRE – BASRAH PROVINCE**

Gulftainer have secured an area of more than three quarters of a million square metres of land close to Umm Qasr Port to be developed and operated as a logistics centre not only catering to the burgeoning oil and gas industry but also to those companies who are assisting in the reconstruction of Iraq. This facility will also include an Inland Container Terminal, which is likely to be a bonded facility and connected both by rail and road to the rest of Iraq.

Through MOMENTUM, in Iraq, the group provides transport logistics, project logistics and freight forwarding.

# IRAQ CONTAINER TERMINAL GATEWAY TO IRAQ

Gulftainer Group – the award winning port operator delivering world-class services, equipment and facilities across the Middle East now brings this proficiency to Umm Qasr providing professional services and facilities to meet all your logistical needs.

## **GULFTAINER (SOUTH OASIS COMPANY FOR PORT OPERATIONS) – UMM QASR**

The Iraq Container Terminal (ICT) (North Port) is currently under construction and will be ready to receive its first vessel in early 2012. This terminal will be equipped with 4 ship to shore gantry cranes and sufficient back up equipment for it to become the most efficient container terminal within Iraq.

## WHY CHOOSE THE IRAQ CONTAINER TERMINAL (ICT)?

- Gulftainer have the experience, a worldwide reputation for fast cost saving performance and established links with shipping lines
- Gulftainer is an independent impartial terminal operator
- There is a professional approach to establishing relationships with lines, agents, cargo interests, port and customs authorities etc
- Terminal will allow lines and their customers, trouble free, cost effective operations – for all cargo discharged
- Of innovative thinking for future development
- The right geographical location, (convenient access to road, rail + cargo with the new Umm Qasr Logistics City just 'next door')

- Of a competitive commercial approach

Gulftainer has decades of experience in operating container terminals in a competitive environment within strict budgetary constraints. Its reputation is unmatched and many lines can testify to the flexible yet structured approach to the speedy handling of their vessels – focusing on saving time for ships (and therefore money). In 2011 Gulftainer's Khorfakkan Terminal was named 'Shipping Port of the Year' for these reasons.

Gulftainer at the ICT will continue to focus on time (and money) saving productivity to benefit lines and Iraqi business.

**INVESTMENT** Up to USD 120 M

**SIZE** Fenced land 300,000 square metres of secure and fenced land
