### **Additional Information:**

The State Company for Oil Projects (SCOP) is a state owned company administrated by Iraq's Ministry of Oil (MoO). SCOP was established since 1964 as the consulting, engineering, and Construction Company for the (MoO). SCOP has construct projects since that date over Iraq from small projects as filling stations and Gas cylinders filling to refineries and gas complexes. SCOP has construct pipe lines up to 5378.027 km from 4" up to 48 " in deferent Parts of Iraq, oil Tanks total capacity of approximately 4000000 M cube. SCOP has participate in re-construct the refineries and other facilities during the wars and after it, and during the sanction SCOP have carry some projects on EPC basis such as wet oil separation and treatment stations in Kirkuk, 10000 bbd refineries, and many others. SCOP has constructed some projects by contracting them to international companies to do project management.

To invite engineering, consulting, contracting, and manufacturers to enter Iraqi market whether as a contractor to SCOP or Ministry of Oil, or to the International Oil Companies (IOC) developing the oil and gas industry inside Iraq, or as an investor in the refineries and pipe lines. Although in Iraq there are some US companies such as Exxon Mobil, Halliburton, we are looking for other reputable US companies for many projects.
