Closing Date: November 1, 2016

Additional Information:

Missan Oil Company is a state-owned oil and gas company located in the Maysan Governorate in Iraq.

It was originally part of the South Oil Company and was separated in 2008 to expand oil activities in Maysan province and to set up joint ventures with international companies to develop the province's oil fields.

Missan Oil was specifically set up to coordinate and develop five of six neglected and marginalised oil fields located in the Mayasan province with the eventual goal to modernise the entire oil industry in Iraq.
