1. Introduction and Purpose

1.1 Purpose

DAI, the implementer of the USAID-funded Iraq Governance and Performance Accountability (IGPA) project, invites qualified offerors to submit proposals to implement the Customer Satisfaction Survey to evaluate the Water and electricity services in KRG provinces (Erbil, Sulaimaniya, Dahuk and Halabja).

1.2 Issuing Office

The Issuing Office and Contact Person noted in the above synopsis is the sole point of contact at DAI for purposes of this RFP. Any prospective offeror who fails to register their interest with this office assumes complete responsibility in the event that they do not receive direct communications (amendments, answers to questions, etc.) prior to the closing date.

1.3 Type of Award Anticipated

DAI anticipates awarding a Firm Fixed Price Purchase Order This is only the anticipated type of award and may be changed as a result of negotiations.

2. General Instructions to Offerors

2.1 General Instructions

“Offeror”, “Subcontractor”, and/or “Bidder” means a firm proposing the work under this RFP. “Offer” and/or “Proposal” means the package of documents the firm submits to propose the work.

Offerors wishing to respond to this RFP must submit proposals, in English, in accordance with the following instructions. Offerors are required to review all instructions and specifications contained in this RFP. Failure to do so will be at the Offeror’s risk. If the solicitation is amended, then all terms and conditions not modified in the amendment shall remain unchanged.

Issuance of this RFP in no way obligates DAI to award a subcontract or purchase order. Offerors will not be reimbursed for any costs associated with the preparation or submission of their proposal. DAI shall in no case be responsible for liable for these costs.

Proposals are due no later than **May 30, 2019 at 5:00 PM Baghdad Time**, to be submitted to ProcurementIGPA@dai.com and the RFP Number and Title of the activity must be stated in the subject line of the email. Late offers will be rejected except under extraordinary circumstances at DAI’s discretion. All proposals submitted in hardcopy shall be sealed and labeled with the RFP Number.

The submission to DAI of a proposal in response to this RFP will constitute an offer and indicates the Offeror’s agreement to the terms and conditions in this RFP and any attachments hereto. DAI reserves the right not to evaluate a non-responsive or incomplete proposal.

2.2 Proposal Cover Letter

A cover letter shall be included with the proposal on the Offeror’s company letterhead with a duly authorized signature and company stamp/seal using Attachment B as a template for the format. The cover letter shall include the following items:

- The Offeror will certify validity period **120** days for the prices provided.
- Acknowledge the solicitation amendments received.

2.3 Questions regarding the RFP

Each Offeror is responsible for reading and complying with the terms and conditions of this RFP. Requests for clarification or additional information must be submitted in writing via email or in writing to the Issuing Office as specified in the Synopsis above. No questions will be answered by phone. Any

verbal information received from a DAI or (insert Project Acronym) employee or other entity shall not be considered as an official response to any question regarding this RFP.

Copies of questions and responses will be distributed in writing to all prospective bidders who are on record as having received this RFP after the submission date specified in the Synopsis above.

3. Instructions for the Preparation of Technical Proposals

Technical proposals shall be sealed in a separate envelope from cost/price proposals and shall be clearly labeled as **“VOLUME I: TECHNICAL PROPOSAL”**.

Technical proposals shall include the following contents

1. Technical Approach - Description of the proposed services which meets or exceeds the stated technical specifications or scope of work. The proposal must show how the Offeror plans to complete the work and describe an approach that demonstrates the achievement of timely and acceptable performance of the work.
2. Environmental Approach-Description of proposed services and how they will be carried out in a way that respects the overall approach of the project to be less wasteful and create as little solid waste as possible.
3. Management approach-Description of the Offeror’s staff assigned to the project. The proposal should describe how the proposed team members have the necessary experience and capabilities to carry out the Technical Approach. Five points of this will be reserved for offeror’s that show a commitment to diversity in staffing including, but not limited to, gender, ethnicity, disabled populations, and other vulnerable populations that apply.
4. Past Performance –Provide a list of at least three (2-3) recent awards of similar scope and duration. The information shall be supplied as a table and shall include the legal name and address of the organization for which services were performed, a description of work performed, the duration of the work and the value of the contract, description of any problems encountered and how it was resolved, and a current contact phone number of a responsible and knowledgeable representative of the organization. See Attachment F.

3.1 Services Specified

For this RFP, DAI is in need of the services described in Attachment A.

3.2 Technical Evaluation Criteria

Each proposal will be evaluated and scored against the evaluation criteria and evaluation sub-criteria, which are stated in the table below. Cost/Price proposals are not assigned points, but for overall evaluation purposes of this RFP, technical evaluation factors other than cost/price, when combined, are considered significantly more important than cost/price factors.

Evaluation Criteria	Evaluation Sub-criteria (if needed)	Maximum Points
Technical Approach		35 points
Environmental Approach		5 points
Management Approach or Personnel Qualifications	Diversity of staff. Give five points for a diverse staffing structure.	35 points

Corporate Capabilities or Past Performance		25 points
Total Points		100 points

4. Instructions for the Preparation of Cost/Price Proposals

4.1 Cost/Price Proposals

Cost/Price proposals shall be sealed in a separate envelope from technical proposals and shall be clearly labeled as **“VOLUME II: COST/PRICE PROPOSAL”**.

Provided in Attachment C is a template for the Price Schedule, for firm-fixed price awards. For cost-reimbursable or time & material awards, the offeror shall provide a fully detailed budget. Offerors shall complete the template including as much detailed information as possible.

5. Basis of Award

5.1 Best Value Determination

DAI will review all proposals, and make an award based on the technical and cost evaluation criteria stated above and select the offeror whose proposal provides the best value to DAI. DAI may also exclude an offer from consideration if it determines that an Offeror is "not responsible", i.e., that it does not have the management and financial capabilities required to perform the work required.

Evaluation points will not be awarded for cost. Cost will primarily be evaluated for realism and reasonableness. DAI may award to a higher priced offeror if a determination is made that the higher technical evaluation of that offeror merits the additional cost/price.

DAI may award to an Offeror without discussions. Therefore, the initial offer **must contain the Offeror’s best price and technical terms.**

5.2 Responsibility Determination

DAI will not enter into any type of agreement with an Offeror prior to ensuring the Offeror’s responsibility. When assessing an Offeror’s responsibility, the following factors are taken into consideration:

1. Provide evidence of the required business licenses to operate in the host country.
2. Evidence of a DUNS number (explained below and instructions contained in Attachment D).
3. The source, origin and nationality of the products or services are not from a Prohibited Country (explained below).
4. Having adequate financial resources to finance and perform the work or deliver goods or the ability to obtain financial resources without receiving advance funds from DAI.
5. Ability to comply with required or proposed delivery or performance schedules.
6. Have a satisfactory past performance record.
7. Have a satisfactory record of integrity and business ethics.
8. Have the necessary organization, experience, accounting and operational controls and technical skills.
9. Have the necessary production, construction and technical equipment and facilities if applicable.
10. Be qualified and eligible to perform work under applicable laws and regulations.

6. Anticipated post-award Deliverables

Upon award of a subcontract, the deliverables and deadlines detailed in below table will be submitted to DAI. The Offeror should detail proposed costs per deliverable in the Price Schedule. All of the deliverables must be submitted to and approved by DAI before payment will be processed.

7	Final report	Final report should include activities outline, summarized report, results & outcome, lessons learned, challenges and any success stories. Recommendation and Photos.	10-12 weeks after award

7. Inspection & Acceptance

The designated DAI Project Manager will inspect from time to time the services being performed to determine whether the activities are being performed in a satisfactory manner, and that all equipment or supplies are of acceptable quality and standards. The subcontractor shall be responsible for any countermeasures or corrective action, within the scope of this RFP, which may be required by the DAI Chief of Party as a result of such inspection.

8. Compliance with Terms and Conditions

8.1 General Terms and Conditions

Offerors agree to comply with the general terms and conditions for an award resulting from this RFP. The selected Offeror shall comply with all Representations and Certifications of Compliance listed in Attachment G.

8.2 Source and Nationality

Under the authorized geographic code for its contract DAI may only procure goods and services from the following countries.

Geographic Code 937: Goods and services from the United States, the cooperating country, and "Developing Countries" other than "Advanced Developing Countries: excluding prohibited countries. A list of the "Developing Countries" as well as "Advanced Developing Countries" can be found at: <http://www.usaid.gov/policy/ads/300/310maa.pdf> and <http://www.usaid.gov/policy/ads/300/310mab.pdf> respectively.

geographic Code 110: Goods and services from the United States, the independent states of the former Soviet Union, or a developing country, but excluding Prohibited Countries.

DAI must verify the source and nationality of goods and services and ensure (to the fullest extent possible) that DAI does not procure any goods or services from prohibited countries listed by the Office of Foreign Assets Control (OFAC) as sanctioned countries. OFAC sanctioned countries may be searched within the System for Award Management (SAM) at www.sam.gov. The current list of countries under comprehensive sanctions include: Cuba, Iran, North Korea, Sudan, and Syria. Goods may not transit through or be assembled in comprehensive sanctioned origin or nationality countries nor can the vendor be owned or controlled by a prohibited country. DAI is prohibited from facilitating any transaction by a third party if that transaction would be prohibited if performed by DAI.

By submitting a proposal in response to this RFP, Offerors confirm that they are not violating the Source and Nationality requirements of the goods or services being offered and that the goods and services comply with the Geographic Code and the exclusions for prohibited countries outlined above.

8.1 Data Universal Numbering System (DUNS)

There is a **mandatory** requirement for your organization to provide a DUNS number to DAI. The Data Universal Numbering System is a system developed and regulated by Dun & Bradstreet (D&B) that assigns a unique numeric identifier, referred to as a "DUNS number" to a single business entity. Without a DUNS number, DAI cannot deem an Offeror "responsible" to conduct business with and therefore, DAI will not enter into a subcontract/purchase order or monetary agreement with any organization. The determination of a successful offeror/applicant resulting from this RFP/RFO/RFA is contingent upon the winner providing a DUNS number to DAI. Offerors who fail to provide a DUNS number will not receive an award and DAI will select an alternate Offeror.

All U.S. and foreign organizations which receive first-tier subcontracts/ purchase orders with a value of \$30,000 and above **are required** to obtain a DUNS number prior to signing of the agreement. Organizations are exempt from this requirement if the gross income received from all sources in the previous tax year was under \$300,000. DAI requires that Offerors sign the self-certification statement if the Offeror claims exemption for this reason.

9. Procurement Ethics

Neither payment nor preference shall be made by either the Offeror, or by any DAI staff, in an attempt to affect the results of the award. DAI treats all reports of possible fraud/abuse very seriously. Acts of fraud or corruption will not be tolerated, and DAI employees and/or subcontractors/grantees/vendors who engage in such activities will face serious consequences. Any such practice constitutes an unethical, illegal, and corrupt practice and either the Offeror or the DAI staff may report violations to the Toll-Free Ethics and Compliance Anonymous Hotline at +1 855-603-6987, via the DAI website, or via email to FPI_hotline@dai.com. DAI ensures anonymity and an unbiased, serious review and treatment of the information provided. Such practice may result in the cancellation of the procurement and disqualification of the Offeror's participation in this, and future, procurements. Violators will be reported to USAID, and as a result, may be reported to the U.S. Department of Justice to be included in a Restricted Parties list, preventing them from participating in future U.S. Government business.

Offerors must provide full, accurate and complete information in response to this solicitation. The penalty for materially false responses is prescribed in Section 1001 of Title 18 of the United States Code.

In addition, DAI takes the payment of USAID funds to pay Terrorists, or groups supporting Terrorists, or other parties in exchange for protection very seriously. Should the Terrorist, groups or other parties

attempt to extort/demand payment from your organization you are asked to immediately report the incident to DAI's Ethics and Compliance Anonymous Hotline at the contacts described in this clause.

By submitting an offeror, offerors certify that they have not/will not attempt to bribe or make any payments to DAI employees in return for preference, nor have any payments with Terrorists, or groups supporting Terrorists, been attempted.

SCOPE OF WORK/TERMS OF REFERENCE

IGPA/Takamul

Customer Satisfaction -Water & Electricity- KRG

A. BACKGROUND AND JUSTIFICATION

Iraq Governance and Performance Accountability Project (IGPA/Takamul)

Project Overview

The Takamul project, also known as the Iraq Governance and Performance Accountability (IGPA) project, works to advance effective, accountable, and transparent governance in Iraq. The project serves as a major channel for U.S. Government support to strengthen governance in Iraq. The project works with federal and provincial governments to better respond to the citizens needs by supporting reform initiatives and Iraqi change agents over governance and public-sector transparency, accountability, and performance. “Reform initiatives” include support to improve public service delivery, public financial management, and open government initiatives. IGPA/Takamul supports federal, regional, and provincial governments and Iraqi citizens through joint partnerships and collaborative efforts to address governance challenges.

IGPA/Takamul has four objectives:

1. Enhance service delivery capacity
2. Improve public financial management
3. Strengthen monitoring and oversight of service delivery and public expenditure
4. Support Iraqi change agents (cross-cutting objective).

Since 2014, The Kurdistan Regional government (KRG) has faced economic crises including differences with the central government in Baghdad because of the war against the Islamic State (IS), the large numbers of refugees and Internally Displaced Persons (IDPs) fleeing to the Kurdistan Region because of the war against IS and because of the decrease in global oil prices, which has reduced resources available for public services. Existing projects are maintained at minimum standards, but there are no new projects. The KRG has been under immense pressure to keep the very basic services running with a limited source of finance. The lessening of the budget has critically influenced the quality of the public service in the KRI including drinking water, electricity, waste management, education, and health care.

Additionally, the KRI has an extensive civil service but cannot currently meet its payroll on a regular basis due to reliance on oil as a source of revenue, economic “boom or bust” cycle which generally relates to oil prices, difficulty expanding foreign investments in KRG, due to security, economic for last 4 year ago, and political contexts, Lack of success in establishing public - private partnerships, as well lack of planning.

This has a negative impact on the government’s ability to provide the public service. The lack of pay also means the majority of people are not able to pay their service bills, increasing the financial burden.

Currently, government services are provided with no feedback from the citizens on how they feel about the quality of services. IGPA will closely work with the KRI CSOs and trained them on oversight and evaluating the water and electricity service to identify the gap and improving the quality of services. The KRI citizens facing challenges to file complaints in smooth way due to absence of a modern complaints system. No one knows how and where to address complaints with government departments or even how to identify the responsible institution. In general, there is no specific phone number to contact and, in most cases, citizens must visit a number of government departments in order to fill out a written request in a multi-step process, that frequently takes weeks to address, if at all, leading to frustration by the consumer.

The project provided technical support to CSOs in the field of oversight and monitoring service delivery to improve service delivery and quality of services and help the KRI government to be more responsive and addressed citizen needs.

This SOW determines the activities, deliverables, quantities and quality of work set in Evaluation water and electricity services and oversight on government service delivery. Many CSOs may have experience in some aspects of this proposal but can consider partnership agreements with individuals that have the skills the organization does not have for the purpose of this proposal.
