

Expression of Interest (Eoi)

TENDER FOR Project No.: **19.9007.6-001.00**

PROJECT NAME: **Irak-058 “ Management of planning and construction of a new Dining Facility at the Peshmerga Hospital in Erbil, Northern Iraq”**

WORKS: **Topographical survey services for the construction of a new Dining Facility for Peshmerga EmergencyHospital.**

The Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH is commissioned by the German Ministry of Defense (BMVg) to implement the medical infrastructure construction measures in the frame of the program Irak-058: **“Management of planning and construction of a new Dining Facility at the Peshmerga Hospital in Erbil, Northern Iraq”**

To enable the Ministry of Peshmerga Affairs to strengthen their medical structures, the German Federal Ministry of Defense commissioned GIZ to implement the “construction of a new Dining Facility at the Peshmerga Hospital” with the BMVg funds from their *Enable and Enhance Initiative*.

A major goal of the project is to contribute to the overall improvement of health care for the Peshmerga forces. Accordingly, the objective is to enable the Ministry of Peshmerga Affairs to operate the Peshmerga Hospital in Erbil sustainably.

In April 2019, the new building of the Peshmerga Hospital was handed over to the Ministry of Peshmerga (MoP) in a festive ceremony.

The aim is to support the Iraq Kurdistan Regional Government in establishing an independent medical service for the Peshmerga that is integrated into the civilian health system.

Currently the capacities and facilities in terms of catering for the hospital staff are not available to cover the corresponding needs of the Peshmerga Hospital.

As part of a further German Federal Ministry initiative to upgrade the new Peshmerga Hospital in Erbil, and therewith commissioned GIZ with the planning and construction of a further building, a Dining Facility for the hospital staff - .

Objective:

The project calls for the topographical survey for a one-story, concrete building facility that will serve as the Dining Facility for the staff of the Peshmerga Emergency Hospital, which is located in **Bahrika District, Erbil Province, Northern Iraq**.

- Topographical survey for the construction of a new Dining Facility for the Peshmarga Emergency Hospital.

GIZ is therefore looking for an adequate survey company who must have the experience and capacities to offer the following activities:

- Assessment of the current situation including land survey together with topographical elevation survey.
- The contractor must label **“GPS Coordination”** all existing facilities that are below natural ground level and above natural ground level, including electrical connections and extensions, electrical powerlines, connections to the main source of water and electricity and all other sanatoria's connections and extensions, buildings and sub-buildings, roads and walkways, boundary fences with all support pillars and

identification of the main corners, as well as the main gate and all sub-main gates. The start-point, mid-point, and end-point coordination of all extensions should be highlighted in the plan of scales 1:500 and 1:1000, and all the existing facility coordination of all corners should be identified.

- The Contractor shall carry out the Topographical Elevation Survey and install/setting up a sufficient number of permanent unmovable affixed Benchmarks Points / reference pillars/stones marking the existing terrain heights at various locations on the plot.
- (Geodetic Triangulation Survey GTS/any other reference Benchmark to site/sites under survey) by parallel leveling & Total Station and provide final copy in 1:500 and 1:1000 scale as well as AutoCAD, AutoCAD Civil 3D files and pdf files.
- The abovementioned files shall include the ground floor elevation marks of the existing Hospital Building and of the existing road network on the premises.
- The system shall be metric and the contours interval shall be 1 meter.
- Triangulation or traversing or a combination of the two methods shall be adopted for the purpose of establishing horizontal control in order to determine the exact relationship between various existing points on ground so that current and further surveys required under the present scope of work and in future may be co-related and tied together.

All activities must be closely coordinated with GIZ G230 Construction Unit Iraq.

Duration of Survey Services

The topographical survey activities are scheduled to take place from **January 2023 to February 2023**, a period of up to **two months**.

Interested companies are requested to send their Letter of Interest with the following documents:

- I. Introduction of the firm and/or the consortium applying.
- II. Copies of original documents defining the constitution or legal status, place of registration (**Company Certificate**), principal place of business and written power of attorney of the signatory (**ID of Ministry of Planning**), all documents should be up to date. Copies of original documents showing registration with Contractor Union.
- III. Grading of Contractor: Category (**1-10**) is required. Please provide evidence.
- IV. At least three references of experience in similar Topographical survey, and implementation in the last four (4) years.
- V. Statements of financial capacity showing annual turnover within the last three (3) years (Statement of turnover or annual tax statement of the last three (3) years). (Should be proved by bank statement).
- VI. Number of employees (permanent and temporary) for the last three (3) years.

- VII. Short CV's (max. 3 pages) about the envisaged key staff to carry out the services including:
- One Civil Engineer
 - One Surveyor Engineer
 - One Site Surveyor
- (Should be proved by contract from the engineering union).
- VIII. Bank data with all details from a local bank (Bank Name, Account Holder, IBAN).
- IX. Affidavit that the firm has not been blacklisted by any Government, Semi - Government & private institute nor involved in any litigation in the current or during the last two (2) years must be recently released.
- X. A letter directed to GIZ exploring:
- Full names of owner and representatives, with their signature's samples for all stages of tendering and implementation and payment processes with their passports attached.
 - The stamp sample.

Deadline:

Interested companies must submit above mentioned documents and the full contact details of their company within specified date until:

8th January 2022 at 17:00

This expression of interest is a market filter for identifying qualified survey companies who are specialised for topographic and land survey services.

GIZ maintains the right for appropriate selection of companies based on GIZ internal audited regulations for procurement and contracting in regard of any possibility for a further tendering process for the abovementioned services

Interested companies shall submit above mentioned documents via email to:

procurement.iraq@giz.de

in a proper digital filing order according to the above listed order, by the registered owner of the company or an authorized representative (confirmed by official letter), otherwise the company EoI will be considered as nonresponsive.

The email subject must be named as below:

"EoI – Topographical Survey for the plot of a new Dining Facility construction at the Peshmerga Emergency Hospital, Erbil-Company name"
