PART 1 – INVITATION TO TENDER

1. INTRODUCTION TO MINES ADVISOR GROUP

PD23.SYHAS.022

The Mines Advisory Group (MAG) is a global humanitarian and advocacy organization that finds, [removes and destroys landmines](#), cluster munitions and unexploded bombs from places affected by conflict.

MAG also provides [education programmes](#), particularly for children, so people can live, work and play as safely as a possible until they clear the land.

And we work in communities to reduce the risk of armed violence through weapons and ammunition management programs which keep guns and munitions safe and secure.

Since 1989, MAG has helped over 20 million people in 70 countries rebuild their lives and livelihoods after war.

We believe it is unacceptable that millions of people are trapped in danger and poverty for years after wars end.

We aim to help communities get on with their lives, and get back their futures.

Our Vision – MAG’s vision is a safe future for women, men and children affected by violence, conflict and insecurity.

People will live in communities where their rights are upheld, with dignity and choice and free from fear from mines, explosive remnants of war (ERW) and the impact of small arms and light weapons and ammunition.

Our Mission – MAG’s mission is to save lives and build safer futures.

We will use our core skills and distinctive competence to save lives through the removal of [mines and ERW](#), and reduce the impact of [small arms, light weapons and ammunition](#) on people and communities. How we do this is as important as what we do — we work primarily with and for communities, for us ‘it’s all about people’.

their children.
