

Expression of Interest (Eoi)

TENDER FOR Project No.: **21.1811.5-002.00**

PROJECT NAME: **ARILA project (Assisting Reconstruction and Improving Living Conditions in Anbar) Construction Component**

WORKS: **Establishing of Street Lighting and the supply and installation of Transformers in the Cities of Fallujah, Ramadi and Heet.**

The Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH is commissioned by the German Federal Ministry for Economic Cooperation and Development to implement the program: **“ARILA project (Assisting Reconstruction and Improving Living Conditions in Anbar) in Anbar, Iraq”**

The Projects main objective is the improving of the Living Conditions in Anbar. It has different components to reach the project goal. Objective of the project is to strengthen state citizen dialogue through the joint assessment and identification of basic needs regarding basic infrastructure in selected communities. Sub objectives relevant for this part of the project are a) Improving infrastructure conditions in Anbar, b) Support the regional Government in Anbar through infrastructure projects; c) improving living conditions in Anbar and d) Improving recreation locations especially for the young people in Anbar.

The component of the ARILA project (Assisting Reconstruction and Improving Living Conditions in Anbar) who especially implements the improving of basic infrastructure in the project area is the Construction Component. Identification of construction projects is done by cooperating organizations like Mercy Corps and NRC. Through them ARILA Construction Component received a list of construction projects which will be implemented by ARILA.

Objective:

The project calls for Establishing of Street Lighting and supply and installation of Transformers in the **Cities of Fallujah, Ramadi and Heet in Anbar.**

- Establishing of Street Lighting
- Supply and installation of Transformers

Therefore, GIZ is looking for adequate and experienced companies who must be able to offer following activities:

Street Lighting:

Establishing of Street Lighting as whole or partial with all required works according designs and BoQ's. This have to be executed according to international standards with high quality and durable materials/equipment, implemented by specialized skilled workers.

All activities must be closely coordinated with GIZ ARILA Construction Component. Work includes:

- 1) Site establishment and running of construction site
- 2) Secure the side during time of construction/installation
- 3) Supplying, Installation lamp posts according to specification
- 4) Set up lighting systems (streetlights) according to design/BoQ/specification

- 5) Road/path surfacing work in connection with the installation of lighting systems
- 6) Electrical work – Installation of the electrical connections
- 7) Maintain equipment and or replace equipment according to specification
- 8) Provide training and Documents for Operation and Maintenance related to the facility

Transformers:

Supply and installation of Transformers with all required works according to designs, specifications and BoQ's. This have to be executed according to international standards with high quality and durable materials/equipment/devices, implemented by specialized skilled workers.

All activities must be closely coordinated with GIZ ARILA Construction Component. Work includes:

- 1) Site establishment and running of construction site
- 2) Secure the side during time of construction/installation
- 3) Installation of Posts for Transformers (if needed)
- 4) Supplying, Installation of Transformers according to specification incl. all related work
- 5) Road/path surfacing work in connection with the installation of posts
- 6) Electrical work to connect the Transformers with the girth
- 7) Provide training and Documents for Operation and Maintenance related to the facility

Duration of the rehabilitation/construction work

The program intends to implement several projects for Street Lighting and Transformers. Therefore, a general timeline can be given only as follow:

Times of tender will start around midst of April with the first project and will ongoing until November 2023 with the last project.

Tender Period for several tenders in the time of **April 2023 until December 2023**. For each tender including contracting a period of **3 to 4 month** is expected.

Project implementation for the different project is planned between **July 2023 until June 2024**. Depend on the size of the project an entire time of implementation is **planned between 4 to 5 months**.

To qualify for consideration in the tender procedure, interested companies are required to submit the following information and documents for eligibility assessment:
