

Water Distillation Apparatus

1) Supply a water distillation apparatus (with prefilter and any other needed accessories or parts to work correctly) specific for laboratory use with the below specifications.

Model Similar to WD-204SF (with prefilter), preferred to be from or similar to Korean brand.

Dimensions (WxDxH mm)		380x290x580
Capacity		3.5 L /hour
Heater		3 kW
Cooling Water		Approx. 30~50L
Material	Inner	Stainless Steel
	Outer	Stainless Steel Hair Lined
	Heater	Stainless Steel Sheath Heater
Controller		Hydraulic thermostat
Electric Requirement		220V 50/60Hz
Switch		Main Power with Pilot Lamp and Water Float Switch
Sealing		Silicone Gasket
Safety		Low Water & Over Heating Cut-Out

2) Feature:

Stainless steel interior and exterior for excellent corrosion resistance and long-lasting
Unique and compact design to be able to use at various places.

Double walled chamber structure protects it from getting hot
Condenser and boiler are separable for easy cleaning and maintenance.

Safety: Broken temp. sensor error, over temperature protection, electric leakage circuit breaker.
